## About Protegus

Protegus is a Web Service for remote intrusion or fire alarm self-monitoring, and control of both Trikdís and 3rd party devices via Web, iOS or Android apps.

**Customers** with existing alarm systems receive new value from Protegus by monitoring and controlling their alarms remotely. Now they can have similar functionality as with new alarm systems, but without changing any of the existing equipment. The only thing necessary is a Trikdís communicator.

**Installers** with Protegus they can offer their customers new features with alarm panels from DSC, Paradox, Honeywell or other prominent brands.

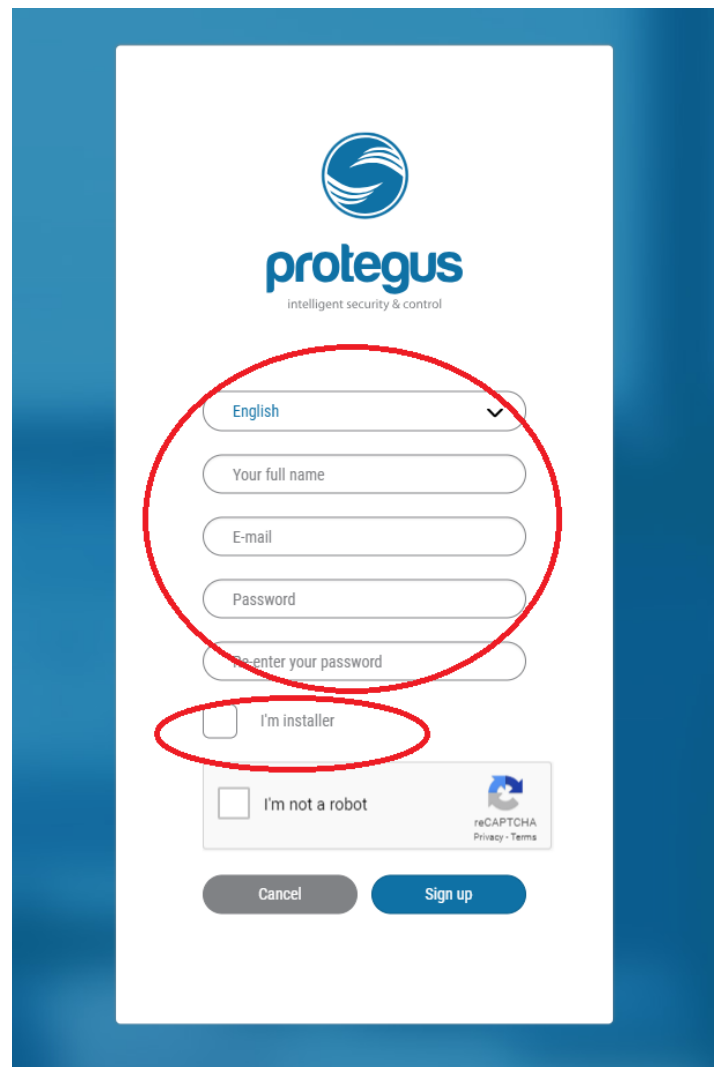

**Security companies** can also provide their customers with apps and self-service via Protegus with security company's logo and custom design. When Protegus is integrated with Security Company's monitoring software, their all customers can enjoy the new experience, even the ones with old and telephone based alarm systems.

For **distributors**, Protegus compliments their current product line, and brings the products closer and with more value to their customers.

# How to place LOGO?

1. Register as "INSTALLER" (mobile phone (Android, iOS), or on the Web: [www.protegus.eu](http://www.protegus.eu))

The image shows a registration form for Protegus. The form is titled "protegus" with the tagline "intelligent security & control". It includes a language dropdown menu set to "English", and input fields for "Your full name", "E-mail", "Password", and "Re-enter your password". A checkbox labeled "I'm installer" is highlighted with a red circle. Below it is a reCAPTCHA checkbox labeled "I'm not a robot". At the bottom, there are "Cancel" and "Sign up" buttons.

- ❖ *If you do not have a Protegus account, you must create it. After making a registration, you will receive an email. Please, confirm your registration.*
- ❖ *If you have an account, please enter in your "INSTALLER" area.*

  
**protegus**

## 2. After registration, log in to your account and follow the steps below to enter your Logo.

❖ Please click on "PROFILE SETTINGS".

The screenshot displays the Protegus dashboard. On the left, a blue sidebar features an upward-pointing arrow and the text: "Please CLICK here. Enter required information. You already have LOGO on Protegus!". The main content area is titled "Active Systems" and shows a "No system added" message with a subtext: "Please add one by pressing 'Add new system' button below". A blue button with a plus sign and the text "+ Add new system" is visible at the bottom of the main content area. The top navigation bar includes a link "Add logo for your customers to see", a button "Add new system +", and a user profile "VIGI".

❖ A new "Profile Settings" window will open

### 3. Add Logo.

The screenshot displays the 'Profile settings' interface. At the top left, there is a 'Select system' dropdown menu. At the top right, the user's name 'VIGILIJA JA' is shown. The main content area is titled 'Profile settings' and includes a 'Save' button. The form contains the following fields:

- Name: VIGILIJA JARAITE
- Phone number: +37068871032
- Country: Lithuania
- Company: TRIKDIS
- Installer Logo (165x45): A field with a 'Select file' button, which is circled in red.
- Change e-mail:
- Change password:

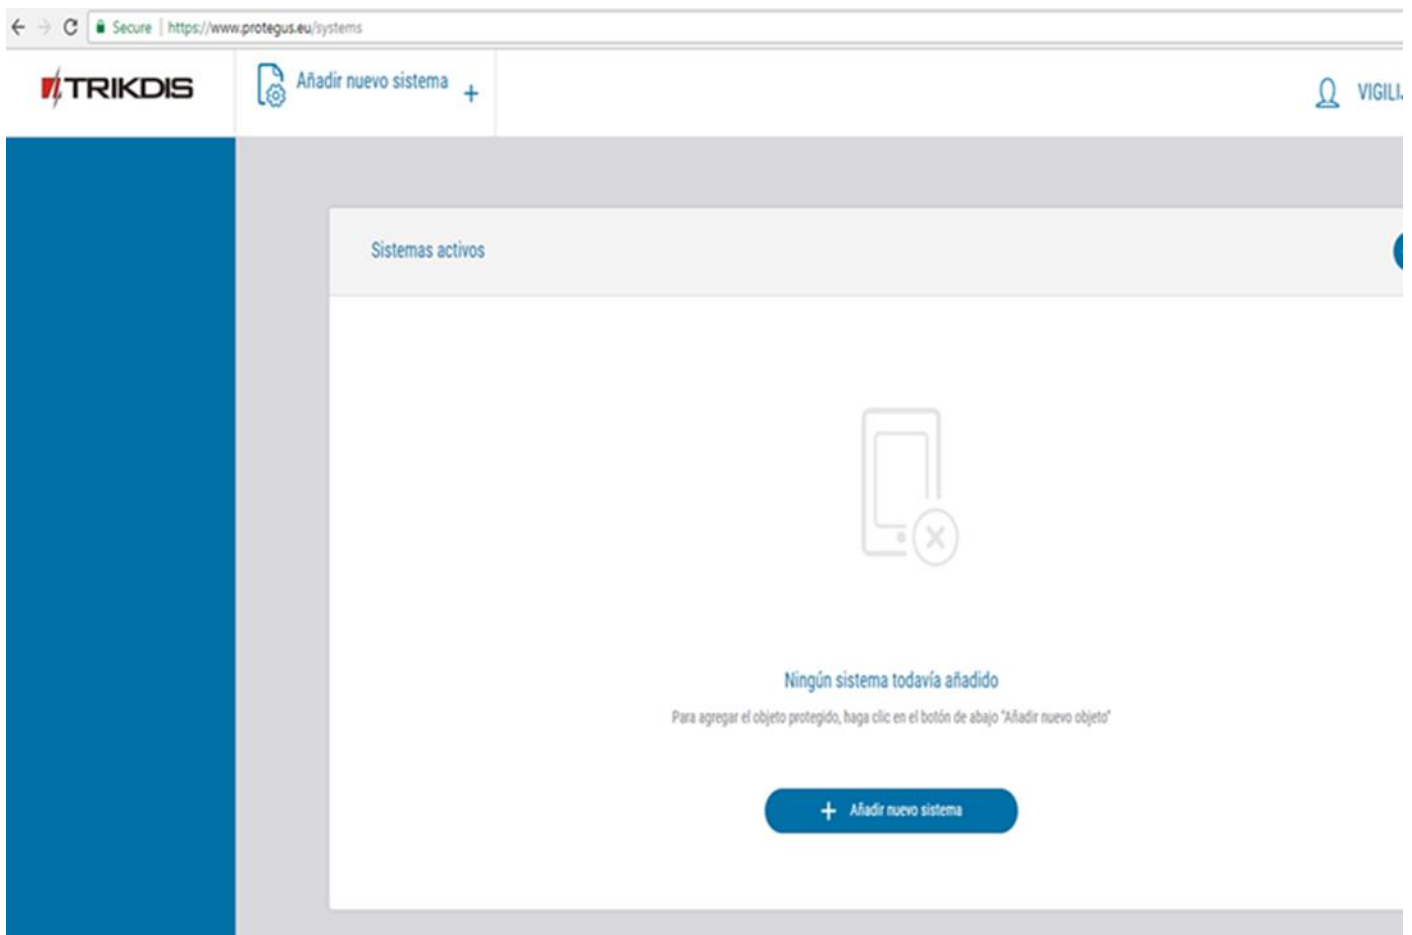

At the bottom of the form, there are two buttons: 'Download account data' (blue) and 'Delete this account' (red).

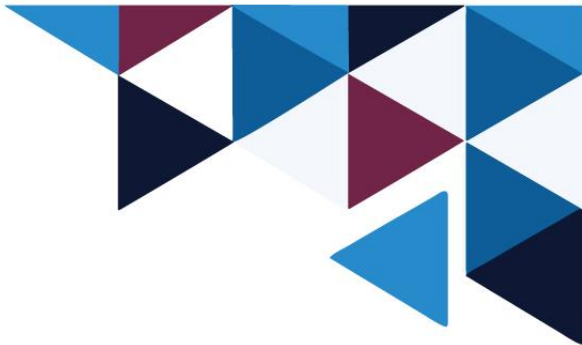

- ❖ The image must be 165 \* 45 px. Stored in the PNG or SVG format!
- ❖ When the logo is loaded – make “Refresh”

**NOTE:** We recommend use SVG format - images will look much better on larger devices.

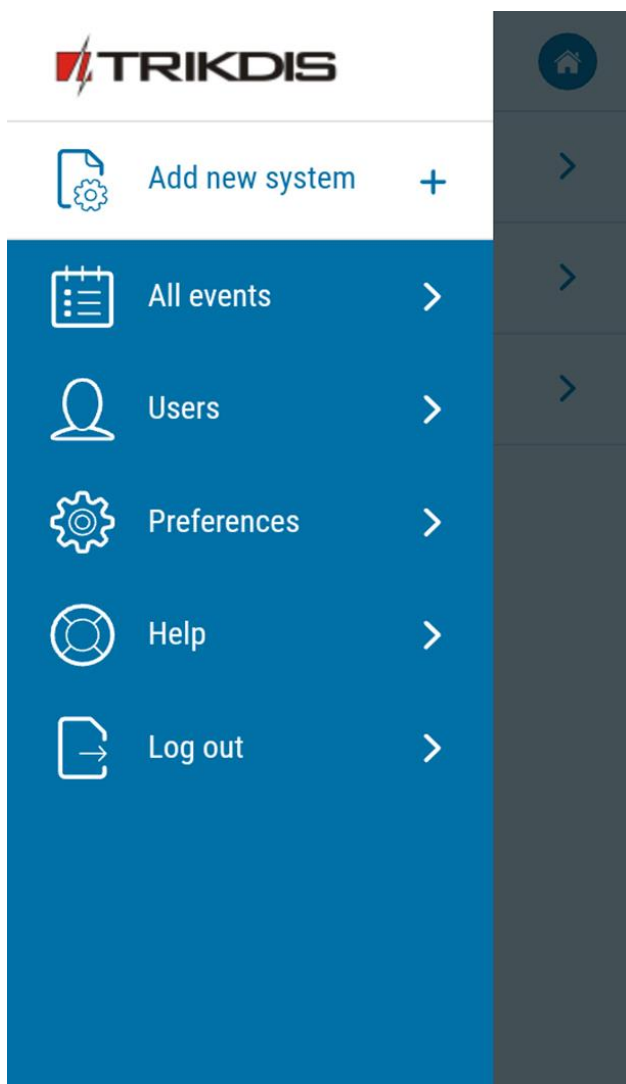

#### 4. After “Refresh” the image looks like this:

❖ WEB:

❖ MOBILE TELEPHONE:

# How to add LOGO to existing systems?

To obtain the "Logo" functionality, all systems must be added from the beginning by the "INSTALLER" and then transferred to the "MASTER" user. User "MASTER" provides the necessary rights to all users of the same system.

1. Log in with your "MASTER" account.
2. Transfer existing systems to the "INSTALLER" account:

**Configuration -> Transfer or delete system -> Transfer system -> enter email of the "INSTALLER" account**

The screenshot displays the TRIKDIS web interface. The top navigation bar includes the TRIKDIS logo, a system status indicator 'TEST SYSTEMA OFFLINE', and user information 'VIGILIJA JARAITE'. The left sidebar contains menu items: Areas, Settings (circled in red), Events, Temperature, and Control. The main content area is titled 'Edit system' and features a table with the following data:

Level	Type	Outputs	Sensors
x	Other	0	0

Below the table, there is a list of configuration options with right-pointing arrows:

- System information
- Settings
- System users
- Notification with sound (ON)
- Notifications
- Alert sound
- Transfer or delete system (highlighted with a red underline)

3. Return/transfer systems to account "MASTER" (do the same steps as with "Transfer to the Installer account")
4. Result: all systems already have the LOGO of your company.
